

# STRUCTURAL STEEL

## We Bring Your Structures to Life

Part of our mission is to never stop pushing the needle on perfection.

### Indoor Advantage

Our indoor, climate controlled shop space of over 20,000 sq. ft. keeps projects on time with no weather delays or work stoppages.

### Lean Manufacturing

Lean innovation and practices are created around services, processes, distribution channels, procedures and partnerships.

### Speed & Accuracy

When we add more volume, we develop a replication model suitable and adaptable on any model for the oil and gas industry.

### We Do It All

When it comes to steel, we can do it all. From pipe racks, skids, platforms and stairs to well pairs and modules—we've got you!

## Gemini Fabrication Knows It's Structural Steel!

With 6,500+ tons a year at 125 tons a week of welded and bolted design, we can meet our client's needs with efficiency and flexibility.

## Let Us Maximize Your ROI

Talk to us about how you can maximize your return on investment for your next project.
